Health Conditions Said Better Now
 By the United Press.

Health conditions in California are better now than they have been for several years.

A report of the state department of public health submitted to Governor Folger shows there has been a "marked decrease" in communicable diseases during July and August, particularly in those affecting children.

Records of the department show that measles dropped from 2,637 cases in June to 935 cases in July. Other drops included: Diphtheria, 244 to 233; chickenpox, 937 to 316; mumps, 613 to 328; scarlet fever, 363 to 210; infantile paralysis, 27 to 24 cases.

L. A. County Gets Largest Portion of Motor Taxes

By the United Press

SACRAMENTO—Los Angeles county will receive \$87,812.08 as its share of the \$430,000 motor bus and truck tax apportionment for the first half of 1931. It was announced here today by Claude Cooper, deputy state controller. This apportionment, the largest in California's history, was based upon the total registration of motor vehicles in the county.

Total collections from the bus and truck franchise tax for the half-year period amounted to \$430,000, of which half, or \$215,218, goes to the state, and the remainder is prorated to the various counties. Under the act of 1927, all stages or motor buses carrying passengers are required to pay 4 1/2 per cent of their gross receipts for the year, while truck companies engaged only in the transportation of property pay 5 per cent.

Los Angeles county received the largest share of the current apportionment, or \$87,812. San Francisco was next, with \$16,454, and Alameda county third, with \$15,142. The smallest amount allotted to any one county went to Alpine, which received \$16.48.

Follows Dad

The father of Miss Maxine Mills has traveled more than a million miles to all parts of the world during 30 years seafaring. He is chief steward aboard the liner Guatemala. The daughter just came to the western coast on her first trip and says she likes the sea. She has been east studying dramatics—but what that has to do with seafaring we don't know.

Believe Brain Can Give Pictures of Man's Last Sight

By the United Press

Can the brain of a murdered man be made to give up the picture of his slayer?

It can, according to R. D. Burdick, inmate employed in San Quentin prison's photo engraving department. The eye, he says, acts as a camera, and photographs scenes on the brain like impressions on a negative.

Burdick is experimenting in the prison laboratory with photomicrographic technique, photographing bacteria, blood parasites and other forms of life invisible to the naked eye.

It is his belief that color waves produce and reproduce physiological sensations, and that in the brain cells of dead persons may be found the answer to the question of whether death was by natural or violent causes.

Blossoms Indicate Hard Winter Ahead

By the United Press

BANGOR, Calif.—It's apple blossom time in Happy Valley. All of which sounds like the title of some popular song, but it really indicates nothing so cheerful as that.

The apple trees actually are in blossom in this district. Old-timers claim, however, that the appearance of blossoms in September is a freakish way. Mother Nature has in indicating the coming of a particularly severe winter.

Broiled Peaches Are Latest Menu Item

Broiled peaches—why not? That's the latest way of preparing a fruit that is now being marketed all over California this month, according to state home economy authorities.

"Broiled" peaches are excellent when served hot with fresh cured pork or igwl. As a dessert they may be eaten either hot or cold," it was stated. Peach cobbler, shortcake, dumpling, pie, yellow and peach cream pie were a few other peach menu suggestions.

Torrance Youth Winning Laurels In Gliding Tests

Additional laurels in gliding were won by E. G. Rowell, Jr., 16-year-old son of Mr. and Mrs. E. G. Rowell of Torrance, who gained decided distinction at the big glider meet at Little Mountain field in the San Bernardino section Sunday, his performance there approaching closely the record for sustained flight in that area.

Young Rowell, who was flying the secondary Evans glider owned by his father, kept his machine aloft for 1 hour, 18 minutes and 16 seconds, providing a rare thrill for the experts and assembled fans as the record for Little Mountain established by Gordon Corwin, president of the San Bernardino Glider club, of 1 hour, 23 minutes, was nearly equaled by the Torrance youth.

A margin of but five minutes in favor of the seasoned glider separated the two sustained flight times. The youth had never before piloted the machine in a soaring flight, his experience having been limited to straight flights and his feats with the glider created a great stir.

The ship almost came to grief several times during the sustained flight, the youth's expert handling of the controls in righting it bringing great cheers from the watchers from the field.

Little Mountain is a difficult field and had not been tried except by seasoned flyers, many having attempted to reach an enviable record there without success, with the exception of Corwin.

Young Rowell is determined to set a new record there and his feats are being watched with interest.

He began this gliding career at the Hollywood Riviera field, where the meets are held every Sunday afternoon, and has long attracted attention by his skill.

State May Buy Beach Site For South Bay Park

Governor Visits Alamitos Bay To Inspect Beach Location

Acting upon the suggestion of Supervisor John R. Quinn that the state purchase the 700 feet of beach property at Alamitos Bay now known as the Frick property, Governor Ralph visited the proposed area last week with Supervisor Quinn and indicated an interest in the speedy consummation of the deal. The proposal will be placed before the State Park Commission at their next meeting at which time the county will offer to match the purchase of the state with beach area of equal value now owned by the county on the ocean and bay front, in accordance with the new law allowing the State Commission to purchase frontage when the purchase is matched dollar for dollar in the gift or purchase of additional frontage.

It is accepted there will be available to the public approximately 8000 feet of bay frontage and 3000 feet of frontage on the Ocean adjoining the bay.

Following the proposal of Supervisor Quinn, F. E. Wadsworth, superintendent of the County Department of Recreation Camps and Playgrounds, held a conference with Charles Hunt, head of the Long Beach Recreational Department for the purpose of co-ordinating the work of the county in that vicinity with the work of the city of Long Beach.

Sees War

Another war in Europe before a year—this is the prediction made this week by Congressman Arthur Free, of San Jose. Free is well-known in the northern part of the state and is now on a visit in Southern California.

Oil Hurts Radio

COLUSA—Oil-sprinkled streets caused so much static in local radio sets that owners complained to city dads. It was found the oil coated street railway rails, interrupted the even flow of electricity. Water sprinkling was substituted for the oil and the radio reception improved.

Old at 40?

Beware Kidney Acidity
 If you feel old and run-down from Getting Up Nights, Backache, Leg Pains, Stiffness, Nervousness, Cries under Eyes, Headaches, Burning and Bladder Weakness, caused by Kidney Acidity, I want you to quit suffering right now. Come in and get what I think is the greatest medicine I have ever found. It often gives big improvement in 24 hours. Just ask me for Lytase (Sess-tex). It's only 75c and I guarantee it to quickly combat these conditions and satisfy completely, or return empty package and get your money back. Dolley Drug Co., Torrance
